To Our Customers:

We have been in the Nursery business in Osaka for the past twenty years, and have supplied, indirectly, both European and American importers with Trees, Plants, Bulbs, Seeds, etc.

For the past three years we have made direct importations of nursery stock and have extended our business this year by establishing an experimental Garden on Columbia Road, Dorchester, Mass., near Bird Street Station, New England Railroad, where we keep in stock a large variety of Japanese trees and plants.

Our Mr. Kosaburo Nishi, an expert nurseryman, who has had a long and varied experience of thirty years in the business, takes the

TO OUR CUSTOMERS:

Though it has been but a short space of time since we opened our store in Boston, we have been encouraged by your liberal patronage, for which we most sincerely thank you.

To customers who have travelled in Japan the name of our Company is very familiar. Our main house, established over one hundred years in Osaka, together with our three branch houses in the same city, have been supplying our customers, both at home and abroad, with Japanese Fine Art.

In Kioto, the centre of Art, and in Nara, "Rome" as she is called, we also keep Branch stores. In fact we have our agencies all over Japan, and thus have put ourselves in a position to collect the most choice specimens of Japanese Art, either Modern or Antique.

Here in Boston we keep for your inspection Japanese Paintings and Prints by ancient masters, Carvings in Wood, Ivory and Metal, Porcelains and Pottery, Bronzes and Brocades, together with articles for domestic use, artistic in color and shape.

We must not forget to thank you for the kind favors you have bestowed on our New York store, 20 West Twenty-seventh Street.

Yours truly,
